

# DEMO IN A DAY

Saxophonist / composer Rob Lavers recorded his last CD 'Small Creature' at Leeds Media Centre [www.myspace.com/roblavers](http://www.myspace.com/roblavers)

## Do you need to get in the studio to record a demo to showcase your latest compositions or a new collaborative project?

Jazz Yorkshire, in partnership with Leeds Media Centre, is offering a free day in the studio for 10 different projects for jazz musicians based in the Yorkshire and Humber region. Recording will be at the Leeds Media Centre recording studio in Leeds.

The scheme is open to all jazz musicians regardless of age and style of jazz. It might be you're an established musician wanting to try a new project or collaboration or perhaps a younger group wanting to record your first demo. The common theme would be that a demo would be used to help trying to get gigs.

### How to apply

Download the application form from the [www.jazzyorkshire.org/demo](http://www.jazzyorkshire.org/demo) and write a brief proposal in your own words explaining what you want to do. Deadline for applications is before Friday 25th July.

### How the bands will be selected

A panel from Jazz Yorkshire will meet to consider the applications. 5 days will be allocated to established musicians and 5 days to younger emerging musicians.

### When will the recordings be?

July – December 2008.
